

WELCOME!

WalkWays is an effort to make Indianapolis more walkable and to get more people walking. The City of Indianapolis, Marion County Public Health Department, and Health by Design are working to develop our community’s first pedestrian plan, with a long-term vision for a more walkable and healthy Indianapolis. The plan will establish clear, equitable, data-driven priorities for future investments in pedestrian projects and programs, making our community safer and more accessible for everyone. The Pedestrian Plan will be adopted as a part of the comprehensive plan and builds on work started through Plan 2020.
